

President's Perspective

We had a nice stretch of cold weather, good snow cover, and good grooming in the middle of December. Those have all been rare occurrences around here in recent years. I hope you were all able to get out and enjoy the snow. It's good to be able to get out early in the season to get our "ski legs" before the big trips start in January.

The snow has also been good for membership. New member applications started coming in soon after the snow fell. Thanks to all who have been spreading the word about the Nordic Foxes.

I also want to take the opportunity to thank Jim Adams and Ric Olson for putting together an excellent club Christmas party. It was good to see so many club members there. The laser tag was a blast!

I wish all of you a healthy, happy, and snow-filled New Year. See you on the trails!

Larry
