

President's Perspective

It looks like spring is finally upon us. But, it was a good, long, ski season for those who were willing and able to travel. My first day of skiing was at Herrick Lake on December 9, and I wrapped things up at ABR on March 21. 32 days of skiing, 9 weekends and 2 full weeks away from home, and 3 races. I didn't realize until I stopped how tired I was from all the travel. But at least I was traveling to do something I love!

Now it's on to warmer-weather activities. Our social planning committee has been doing an excellent job of coming up with things to do year-round.

Hope to see you at the end-of-season party on April 20!

I'll wrap this up with a big THANK YOU to all Nordic Foxes who helped make the 2005-2006 ski season a success!

Larry
