

## President's Perspective

The club is celebrating its 25<sup>th</sup> anniversary this year! The big event to commemorate this occasion will be a picnic in July (details are on the next page). We will also plan something special for the October club meeting, as the Nordic Foxes were founded in October, 1981. I hope you can participate in these events - they will be a great opportunity to meet former members and to learn more about the club's history. A big THANK YOU to Dianne Means and Diana Hardy for organizing the picnic!

Since it is difficult to "think snow" with 90-degree temperatures in May, the club has planned a lot of warm-weather events to tide us over until cold weather returns. Details are in this newsletter and on the web site. Also, our first club meeting of the new season is not really all that far away - Thursday, September 21, at Arrowhead. The people at the Naperville YMCA treated us very well during our two years there, but club members expressed a clear preference for returning to (the new and improved) Arrowhead facility.

I will close with one more thank you - to the members who are keeping the club running throughout the warm-weather months. The newsletter is coming out regularly, the web site was recently updated, we've had membership activity, and various members are leading and participating in activities throughout the summer. THANKS!

*Larry*
